- Distribution facilities
- Manufacturing & assembly plants
- Food & beverage processing plants
- Outdoor markets or parking lots

8300 Automatic Floor Sweeper-Scrubber:

The 8300 is a multi-tasking workhorse with outstanding productivity capabilities in even the harshest industrial environments. Operators can sweep, scrub & vacuum in a single pass or can run in dry sweep only mode, scrub only mode or just vacuum up water. Equipped with a patented Multi-Technology Sweeping system, which delivers direct throw high performance sweeping. Available MaxPro™ Scrubbing Technology delivers consistent downward pressure on the brushes for increased performance & longer brush life. Clean up to three times longer & reduce cleaning costs with available ec-H2O™ and FaST® technologies. Break away, parabolic squeegee provides excellent water recovery. Large 80 gal solution tank & 95 gal recovery tanks are easily accessible. Operate with ease with standard power steering, one button operation, & no-tool access to the brushes, squeegee system and batteries.
